MEMORANDUM FOR THE RECORD

SUBJECT: OJCS Expansion and Upgrading

1. The Comptroller and the undersigned met with the DCI on 19 May to review, discuss, and to make some determinations on the various requests involved in the OJCS expansion and upgrading program. The DCI's positions are stated as follows:

a. He has approved the purchase on a five-year pay plan of the IBM 195.

b. He has approved in principle the space expansion and the various utility acquisitions necessary to carry out the OJCS equipment acquisition plan. At such time as the FY 76 Congressional appropriation is known to the DCI, he will again review the matter to determine if he can reprogram FY 76 funds in the amount of [REDACTED] dollars necessary to supplementarily fund OJCS (really the Office of Logistics) to carry out the space and utility plan.

25X1A

c. To the degree that actual, positive approval is given to the above, i.e., the acquisition of space and utilities, he approves the OJCS forward-year budget reprogramming to acquire under lease four (4) IBM 168 computers.

d. He approves of the undersigned, the Comptroller, and the Director of OJCS instituting conversations leading to the development of recommendations for an Agency-level priority control plan for requests for computer services.

CONFIDENTIAL

2. This memorandum authorizes the necessary action by OJCS and OL to commence that action which is necessary to accomplish the approvals reflected above. OJCS and OL are authorized to pursue the space expansion and the utility acquisition portions up to the point of signing contracts. Such contracts cannot be signed until we are assured the availability of FY 76 monies. In this connection, it is requested that OJCS and OL again review the absolute necessity for the two, uninterrupted power sources called for in the utility plan. If any options to this can be developed, I would appreciate there being presented to me within about two weeks.

3. I will take action at an appropriate time to organize the discussions on the priority control plan.
